LETTER FROM THE PRESIDENT

Dear Friends and Partners,

Fiscal Year 2022 was another outstanding year for Lagos Food Bank Initiative. As we continue to be at the forefront of relieving hunger nationwide distributing more than 11 million meals to vulnerable families in need, we are grateful for your unwavering support. Our mission to solve hunger by providing nutritious meals to those in need through innovative programs and partnerships is thriving, thanks to the support you offer to us.

Through innovation and collaboration in FY2022, LFBI was able to serve over **314,000** beneficiaries in all 20 Local Government Areas in Lagos including 6 other states in Nigeria by distributing a total of **350,944KG** of food and non-food items whilst increasing our cumulative total beneficiaries served to 2,400,000.

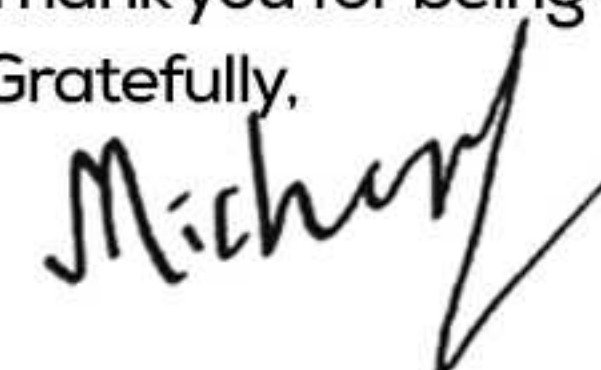

Other notable achievements for Y2022 were the launch of a new warehouse with a capacity size of 500sqm to accommodate more food donations and space for preparation and packaging of relief materials, the acquisition of an additional fleet to aid logistics, contribution to the first ever published Global Food Donation Policy Atlas for Nigeria with the Harvard Law School Food Law and Policy Clinic, published our school feeding guide, rescued over **50,000kg** of food and redistributed to avoid food waste, etc.

FY 2023 promises to be a productive and impactful year for us as we have set measurable targets that will bring us closer to achieving SDG2 . These goals include exploring technology-based solutions that improve operational efficiencies and volunteer management; expanding infrastructure and warehouse facilities to ease operations and food supply; strengthening all programs to improve the quality of service to beneficiaries and support them in their pursuit of improved quality of life and greater stability; diversifying our current funding sources to include multilateral partners; increasing LFBI's footprints and impact in more states in Nigeria through onboarding of more partner NGOs and finally work to secure GFN membership certification in FY23.

As we look back at this past year, we are deeply grateful and feel a sense of pride in the work that has been made possible but we know that there is still much to be done. On behalf of all our beneficiaries, young and old, I would like to thank all kind-hearted individuals, families, organizations, businesses and foundations that support us, our excellent staff members and hardworking volunteers for helping us move closer to achieving the goal of zero hunger in Lagos and Nigeria.

Thank you for being a part of this journey.

Gratefully,

Michael A. Sunbola

LAGOS FOOD BANK INITIATIVE

SUSTAINING HOPE AMID GLOBAL FOOD CRISIS

The world has experienced an increase in global food inflation since the COVID-19 pandemic. Countries hoped things would get back in place, however, war between Ukraine and Russia since February 2022 brought that to a halt and further increased food inflation. Sadly, Nigeria is one of the countries suffering the brunt of the food inflation crisis which has been further worsened due to the nation's poor economic growth, climate change, poor food reserves, overpopulation and widespread insecurity.

With food inflation at over 20% in Nigeria (and limited purchasing power due to increased transportation costs, housing cost, healthcare cost, etc.) many more households are going hungry and seeking the assistance of the food bank as they are unable to afford safe and nutritious meals daily.

To address this predicament, Lagos Food Bank Initiative is leveraging its resources, capabilities and partnerships to mitigate food insecurity in its sphere of influence. We are making sure that we help the people who need it the most by scaling up to support the most vulnerable in far-to-reach communities.

Through our different programs, we continue to serve our beneficiaries by providing them with safe and nutritious food, clothings, self-care items, connecting them to available menial job opportunities, training and setting them up on small-scale farming to improve their source of income, etc. This is done to attain a hunger-free Lagos and Nigeria.

CLOTH BANKING NIGERIA

Clothes are part of the basic amenities we must have as humans because they provide physical protection to the body against cold and hot weather conditions, occupational hazards, and also serve as a covering for the body according to the code of decency established by society. The cloth banking Nigeria is an initiative of LFBI that focuses on ending vulnerability resulting from lack of clothing and other basic needs.

“

I volunteer because it continuously teaches me something new about people, leadership, teamwork, compassion, and about myself. In helping others, I am reminded that we are all in this together and we need to remember to support each other. Life has so much more to offer if we remember to look beyond ourselves.

FIGHTING FOOD WASTE, SOLVING HUNGER

Every time food is wasted, all of the resources that are used to produce the food including water, land, power, labor, and capital are also wasted. Besides alleviating hunger, reducing the amount of food sent to landfills is a key challenge to increase environmental sustainability.

The Lagos Food Bank, through our food rescue program partners with food companies to request and save food items that are close to expiration date or best before. The food items are collected and re-distributed to people facing hunger, instead of ending up in landfills.

TOGETHER WE CAN

To eliminate food insecurity and achieve a hunger free society, everybody has to be involved, both the government, the farmers, food manufacturing, as well as non-food manufacturing companies, the retailers (market men and women) and the consumers (young and old) have to actively participate to eradicate hunger from the society. There is still a lot of work to be done at the Lagos Food Bank Initiative to feed the hungry by providing safe nutritious meals and by empowering the underserved through our empowerment programs to be able to cater independently for their immediate needs. You can partner with us by financial, food and non-food items donations, you can join us in volunteering to reach out to so many low-income communities, and you can also offer your special services such as photography, writing and graphic designs.

PARTNER WITH US

We still have a lot work to do, together we can feed the hungry and help improve the nutrition of Pregnant women and children

1 Financial & Food Donations

Lagos Food Bank Initiative relies on financial sponsorship, food donations and Food rescue. To donate to LFBFI, kindly contact us.

2 Volunteer

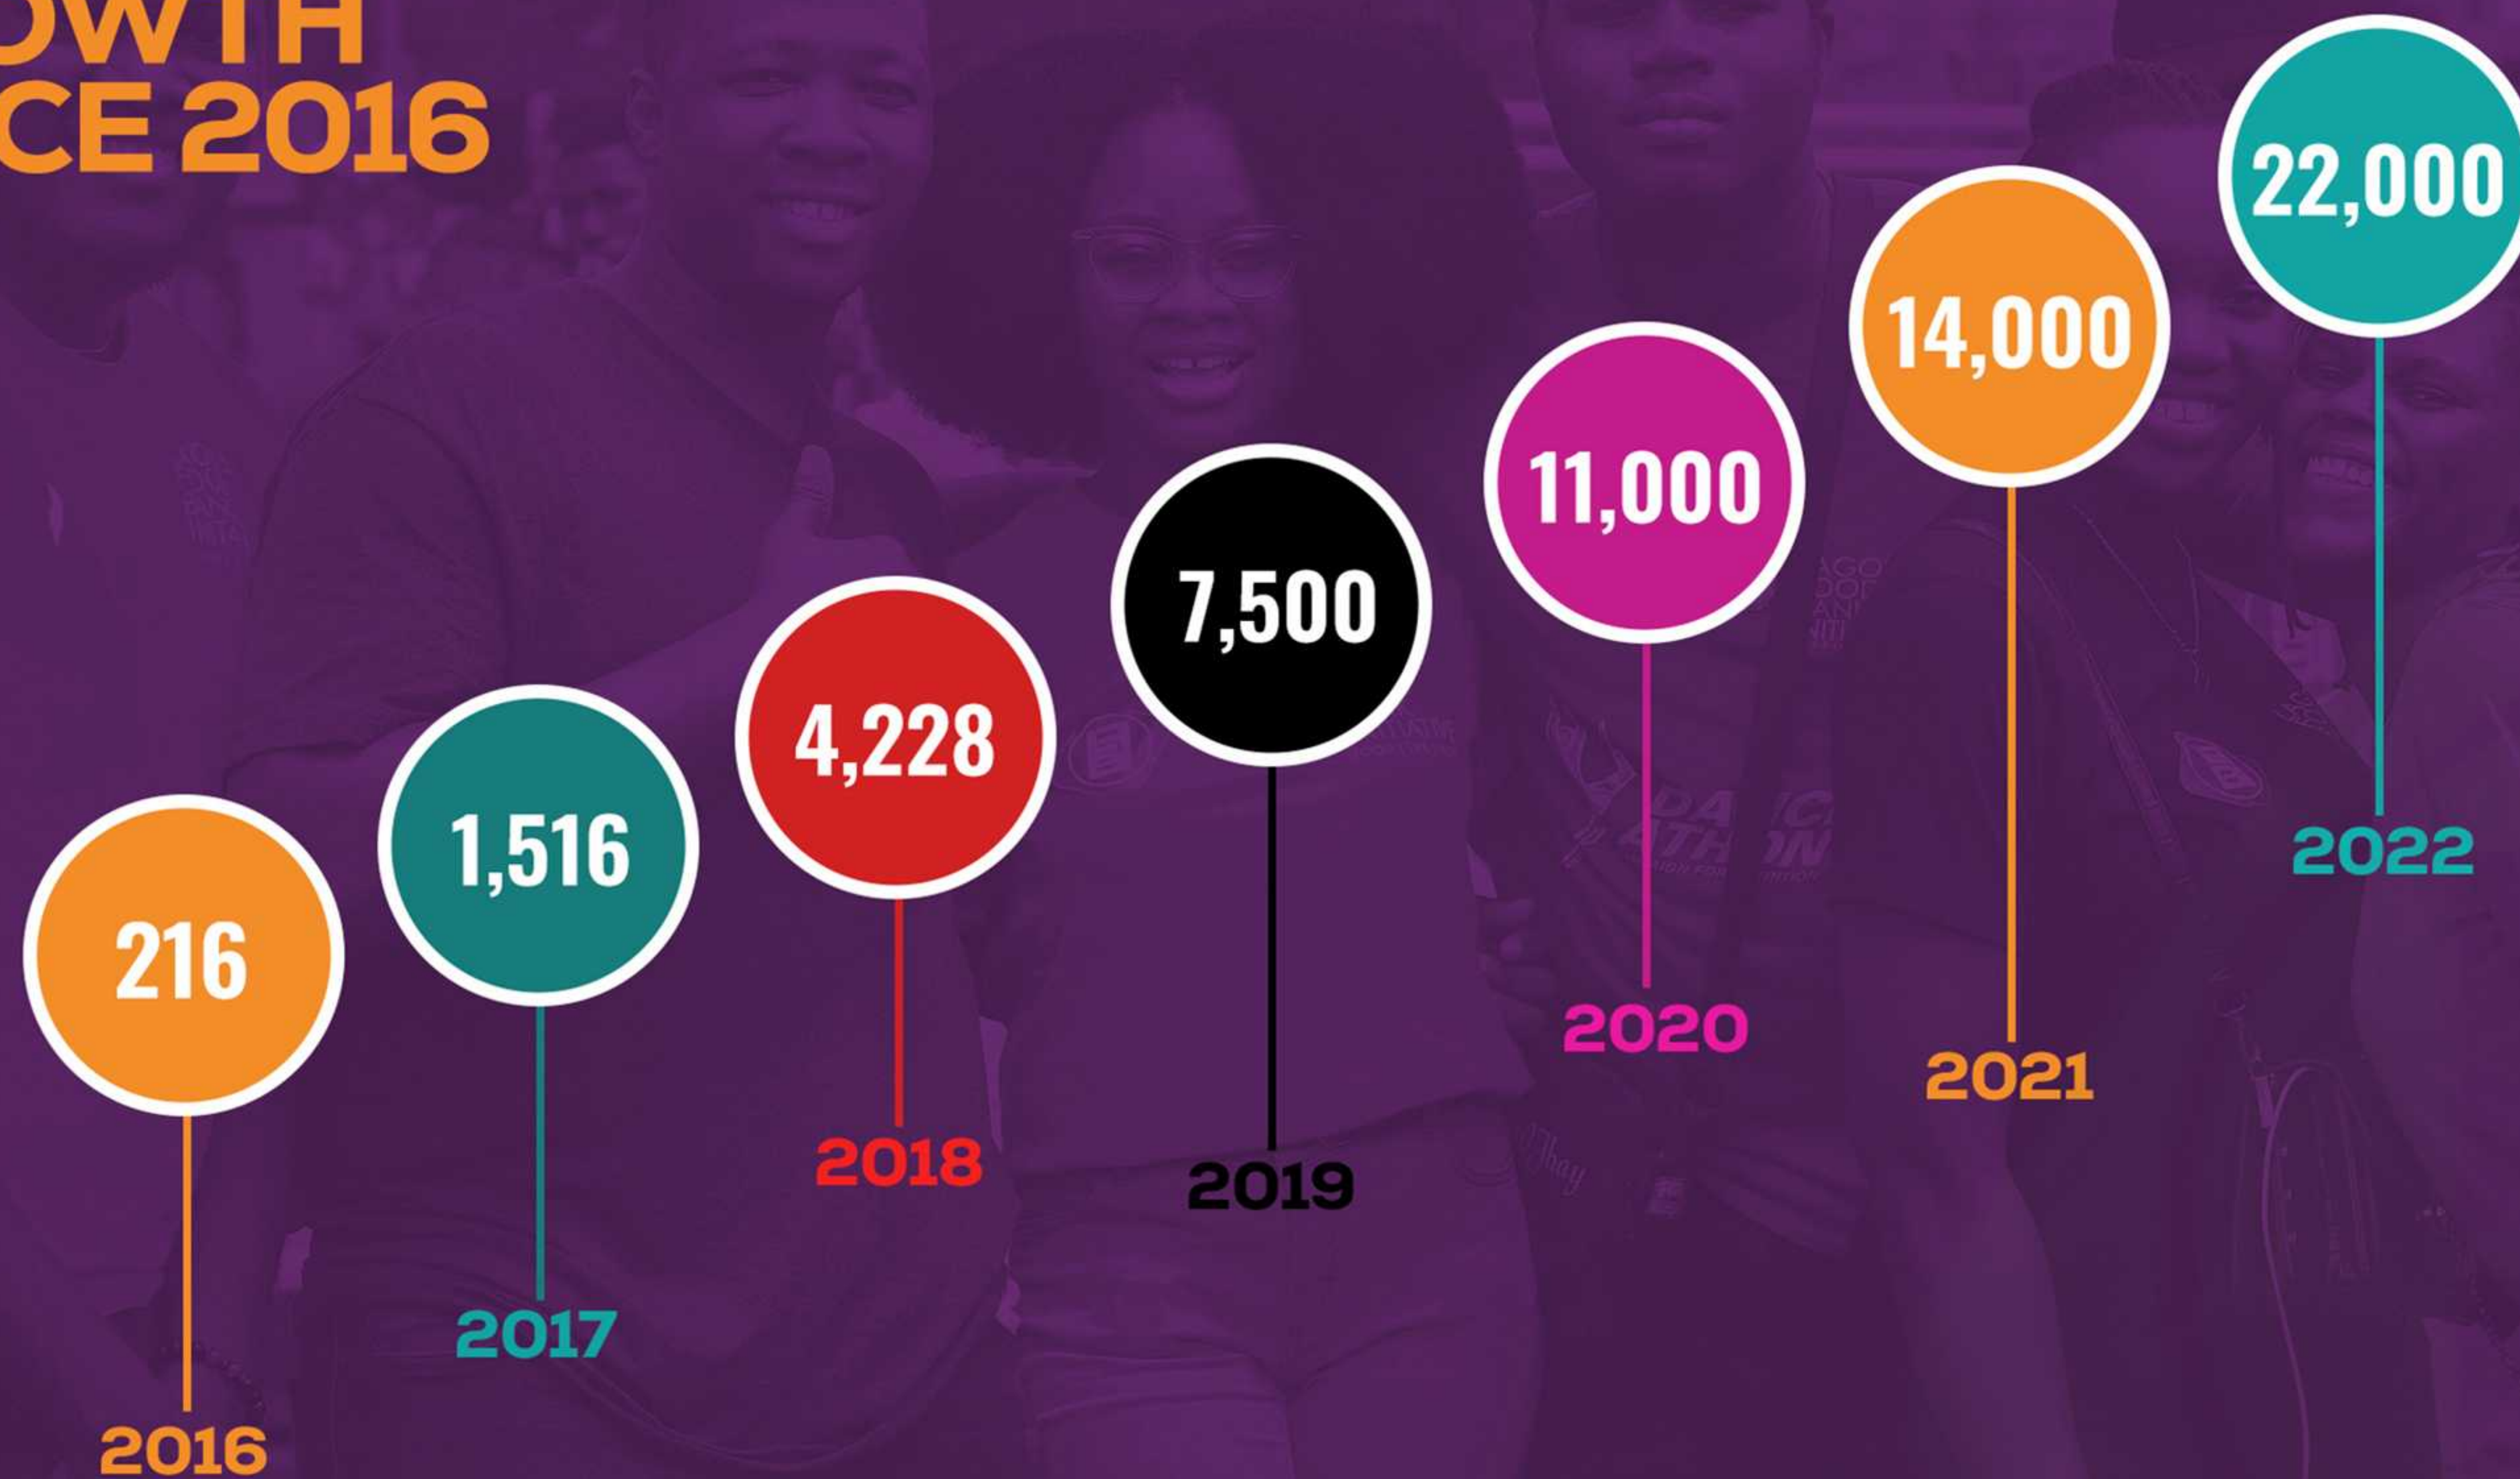

You can volunteer as an individual or a group. Volunteers help with several services during our monthly outreaches and at the food bank

3 Offer your Services

If you have a special skill like photography, videography, writing and graphic design, you can offer your services by helping out.
