# LETTER FROM THE PRESIDENT

Dear Food Bank Family,

The journey of fiscal year 2023 was indeed a remarkable one for the food bank as we experienced significant growth in all aspects of our operations and the impact we have created through our activities.

FY '23 was a deciding year for the country and alongside came a myriad of actions that increased the need for support by vulnerable individuals. Through it all, the food bank launched new programs and initiatives to mitigate the effects of food insecurity and malnutrition prevalent in the country. In this, the birth of the Agricultural Recovery Program which was launched to reduce food loss and waste as we partnered with local farmers to rescue surplus agricultural products to re-distribute through our nutrition focused programs. Also launched was the Cloth Banking Nigeria Program and Food Bank Network Nigeria, as we ensure we close the gap on clothing poverty through clothing and essential material donations; while reaching farther communities with a coalition of non-governmental organisations.

We received recognitions and awards from the prestigious Water Air Food Awards (WAFA) through the Family Farming program and in recognition of our impact in alleviating hunger and malnutrition across Nigeria through CSR engagement activities we received the 2023 Nonprofit of the Year award. As part of our achievements in FY '23, we have partnered with multilateral organisations such as Australian Aid among others which have been instrumental not only in our growth as a food bank but also ensuring our beneficiaries have access to stable sources of livelihood. Irrespective of the challenges that came with the year, I am glad and confident to say that we have remained resilient in our pursuit for a well-nourished society.

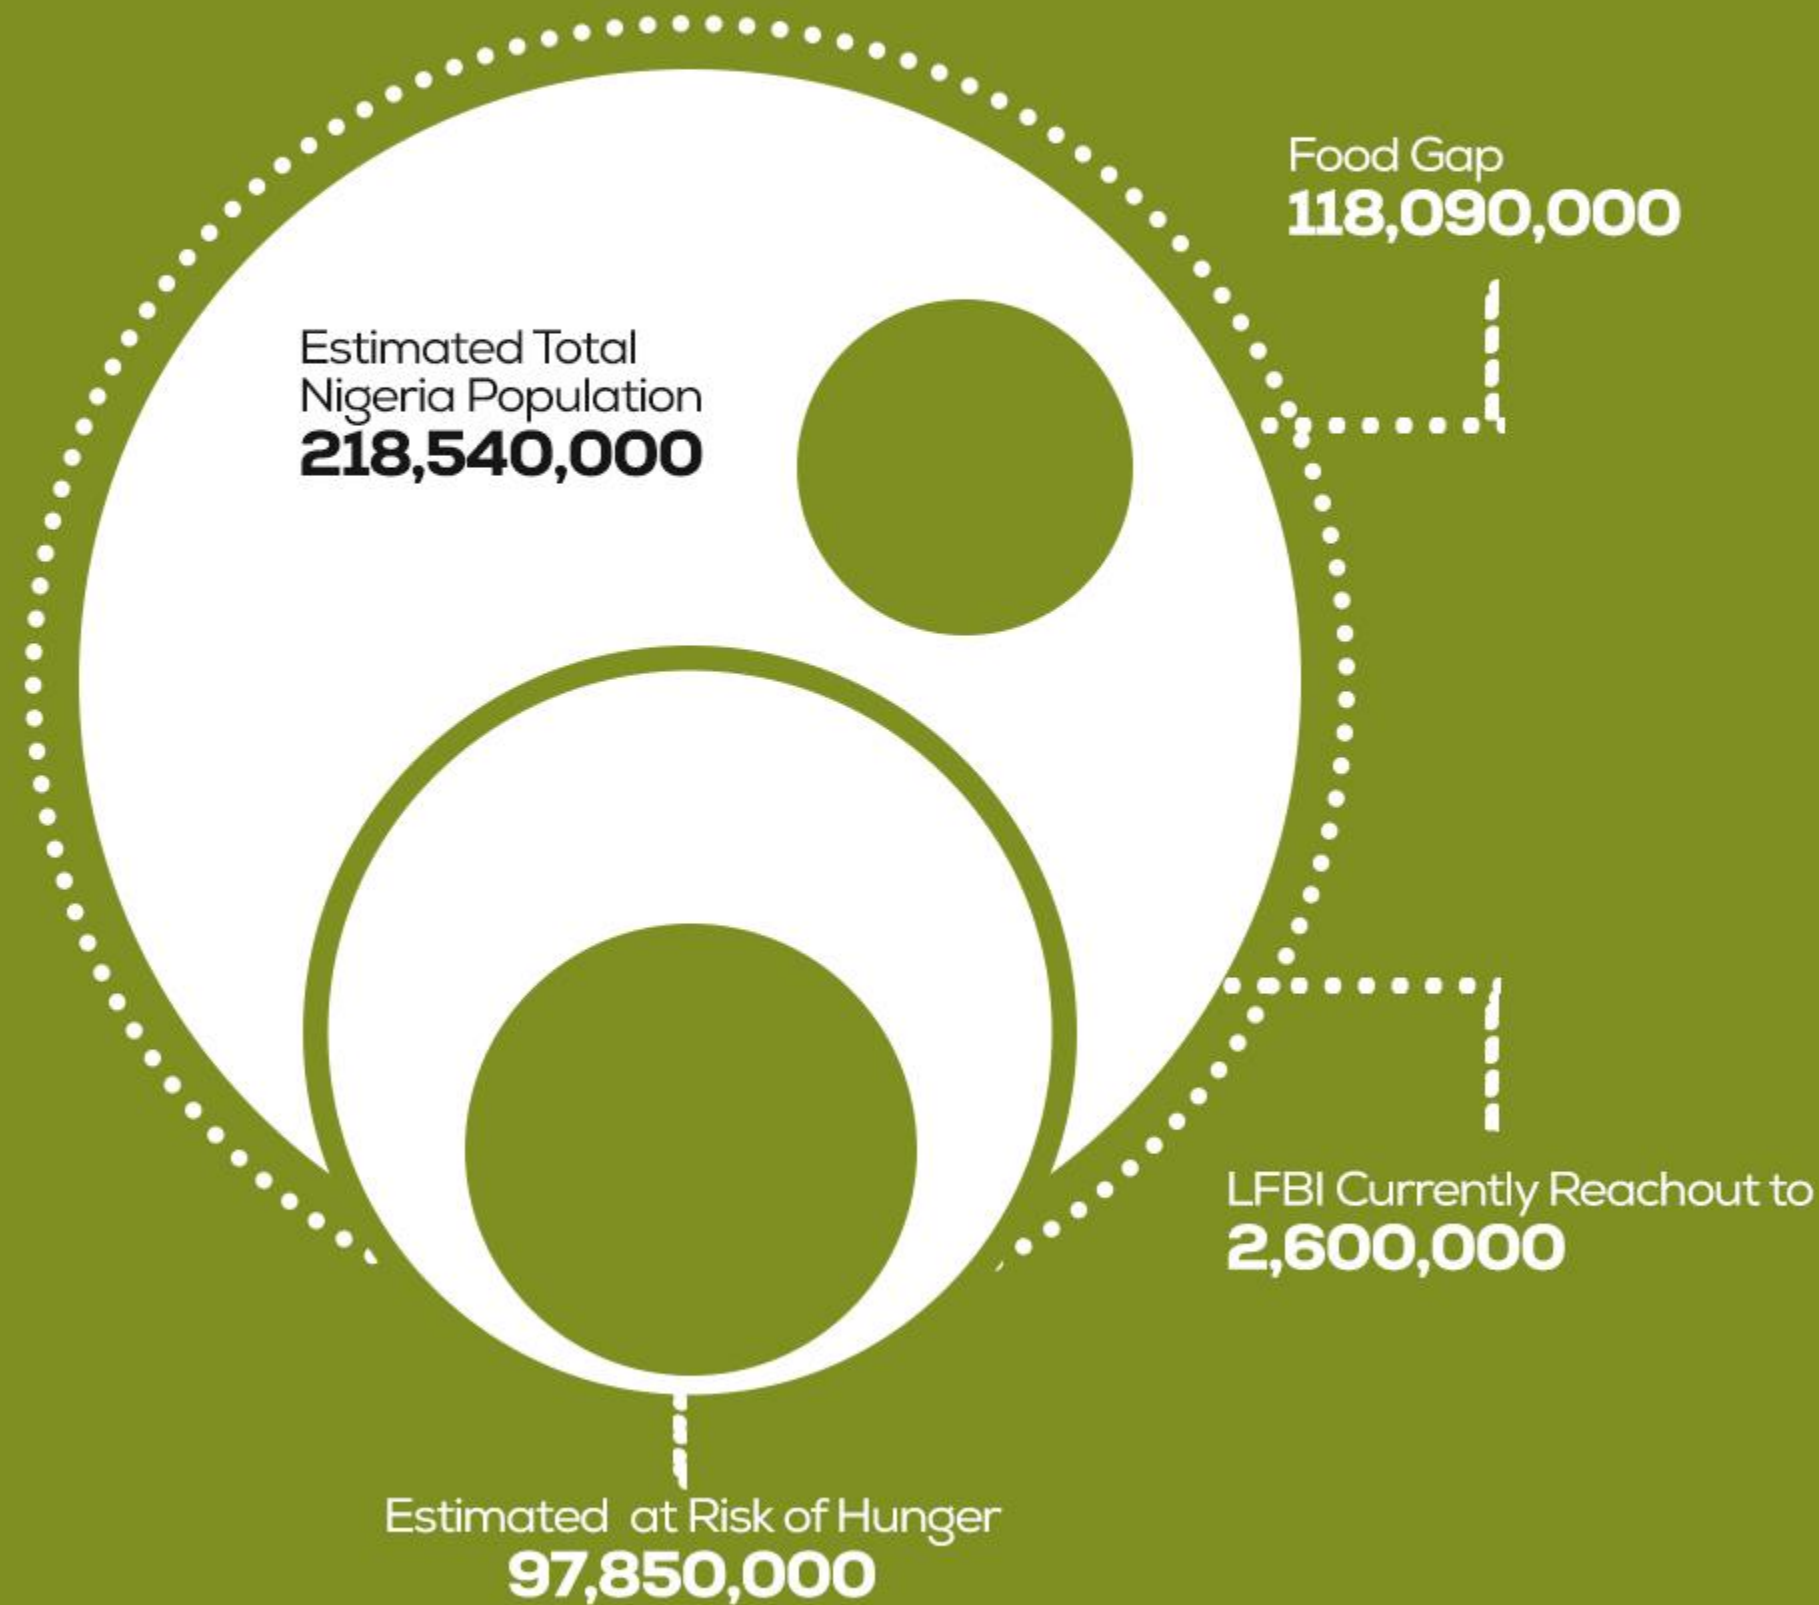

As we look forward to the next fiscal year with enthusiasm, it is with a joyful and grateful heart that I express my deepest appreciation to our community, for without your undoubted kindness, compassion, sacrifice, dedication and hard work as our contributions bring our vision of a hunger-free society to light, and with your continued support, we remain steadfast in addressing the basic needs of humanity as a necessity, in togetherness.

Thank you.

# THE NEED FOR A HUNGER-FREE LAGOS

Lagos State as we know, is the major economic center of Nigeria, housing headquarters of most conglomerates and commercial banks in the country. The state undoubtedly holds the highest Internally Generated Revenue (IGR) amongst the 36 states of the country with a yearly increase of over 10%. In terms of population, Lagos has a record of over 25 million residents, making it the largest city in the continent. This implies that Lagos would be the fifth largest economy in Africa if it was a country on its own.

Holding so much potential within its borders, Lagos is known for a high cost of living with a minimum wage of 35,000 Naira. Yet, well over half of its residents are living below the stated minimum wage and are faced with economic challenges, food insecurity and malnutrition which has worsened over the years due to the pandemic and national insecurity leading to regional crises across the country.

Known as the Centre of Excellence, Lagos State is the pacesetter for socio-economic growth, development and stability for other states in the country and so it is important to note that menaces like hunger, malnutrition and poverty if well-addressed and reduced to its barest minimum in the state, would undoubtedly create a ripple effect on other states in the country in due time. This is why there is great need to address hunger, malnutrition and poverty faced by residents of Lagos, or Lagosians, as they are widely known.

To this effect, Lagos Food Bank has established its food bank in Lagos State, to gain a strong foundation in tackling the above-mentioned menaces, a strategy to salvage not only the state but the whole nation, one state at a time. So far, the food bank has managed to impact every local government in the state, and other low-income communities in other states across the country through its food assistance program and is looking to do much more as a vast number of the Nigerian population is still in dire need of nutrition support. Through partnerships with corporate organizations, public and private sectors, individuals and government parastatals the food bank can indeed achieve its goal of ensuring a hunger-free society of well-nourished and food secure individuals.

# OUR PROGRAMS

2 ZERO HUNGER

Food is a moral right to all, and there should be equitable access to sufficient nutritious meals. Through the Temporary Emergency Food Assistance Program (TEFAP), nutritious food items and personal relief materials are made available to vulnerable families in underserved communities for their sustenance. With this initiative, the food bank reaches beneficiaries through community outreaches and walk-in services with food and non-food items. As the cost of living continues to be on the rise, the TEFAP intervention enables the food bank beneficiaries to channel their limited available resources to meet other important needs.

## TESTIMONIAL

When I initially joined, I had no farming knowledge whatsoever. However, through the program, I received training in vegetable, chicken, and snail farming. Now, I am confident in my ability to raise chickens and sell them within my community.

Easter was a challenging time for my family when it came to putting food on the table. However, thanks to my newfound chicken farming skills, I was able to sell chickens for prices ranging from 7,500 to 8,000 Naira each during that period. The income from these sales made a significant difference, allowing me to feed my children.

- Beneficiary, Gloria Itodo

## TESTIMONIAL

I acknowledge the immense impact the program has had on my family. The organization not only provided me with training but also the necessary resources to start my own farm.

With the knowledge I gained, I started planting vegetables. My home became a source for fresh vegetables, attracting many of my neighbors. In times of hardship when I had nothing to eat, I sold four of my vegetables and used the proceeds to feed my children. I must admit I never realized the potential in farming until I became a part of this remarkable program.

This program is geared towards ensuring our beneficiaries get jobs to enable them to fend for themselves, contribute to the enterprise, and not solely rely on the food bank for food and relief items. ## RESCUING FOOD TO ADDRESS FOOD INSECURITY

Food waste contributes majorly to food insecurity. However, hunger is not necessarily the absence of nutritious food but the lack of availability which can be addressed through a proper re-distribution of food supply.

Lagos Food Bank collaborates with food production companies to procure and rescue food items nearing expiration and best-before dates. These items are collected and distributed to individuals experiencing hunger, preventing them from being discarded in landfills.

# THE EFFECT OF SUBSIDY REMOVAL IN NIGERIA

The year 2023 came with major changes in the lives of Nigerians socially, politically and economically. Apart from the most recent presidential elections conducted earlier in the year, one important change that not only affected the economy abruptly but also plunged more Nigerians into hardship was the removal of the fuel subsidy.

The decision to remove the subsidy without a proper plan in place to cushion the effect only exacerbated the already dire situation for scores of millions of Nigerians. The consequences of this abrupt policy change became evident in the daily lives of the people. Many could no longer afford the basic necessities, such as food, healthcare, and education, especially those on low incomes and those at the brim of the poverty line.

This challenge presented the food bank with the opportunity to take responsibility in initiating more intervention programs like the SRFAP, which stands for Subsidy Removal Food Aid Program, to help mitigate the unfavorable effects caused by the removal of fuel subsidy which led to a spike in general market prices of food and non-food items.

With the support of our partner, Global Foodbanking Network (GFN), the food bank initiated numerous outreaches in various parts of Lagos throughout the year to provide food and personal care items to the food bank beneficiaries in the wake of such trying times.

The effect of subsidy removal has been marked with economic hardship and Lagos Food Bank is doing a great job in addressing the pressing needs of the people most affected by the unavailability of resources to meet their basic needs due to the policy change.

# LFBI SPECIAL VISITS

In December 2023, we had the honor of receiving a representative of the Global Food Banking Network to the food bank. The visit was targeted at providing on-site technical assistance and improving upon the international best practices of the food bank .

The Youngold Montessori Schools paid a visit to the Lagos Food Bank as part of their 10th-year school anniversary celebration. The visit to the food bank provided the pupils with a valuable opportunity to learn about the operations and programs of the organization. During their visit, the pupils were also involved in box packing activity which involved packing food or other essential items into the boxes of hope for distribution to individuals and families in need. Through this hands-on experience, the students developed a deeper understanding of the process and the impact their efforts can have on the lives of others.

# LFBI SPECIAL VISITS

Among various food bank teams represented, the LFBI team were present at the 2023 Food Bank Leadership Institute which was held in Mexico City, Mexico centered on the theme "Food Banking in an Age of Volatility."

As the first half of the year drew to a close, we announced a partnership with the Australian High Commission in Nigeria through our Family Farming Program to support the Lagos Food Bank work in promoting food security across the vulnerable economy and a courtesy visit to the food bank to commence said partnership.
